

Year 8 Technology 2019

Technology

Year 8

Length: 1 Semester

Assumed Knowledge:

None

Description:

This is an introduction to Technology Education. Students will:

- Learn about tools, materials, processes and issues involved with technology.
- Learn design and problem solving techniques.
- Learn to make articles using planning skills, basic maths, science and computing skills.
- Develop hand skills to complete set problems.

Safety glasses and solid shoes are required. Glasses will be provided but students may purchase their own through the Student Services Office.

Assessment Details:

Students will be assessed on practical processes as well as written assignments.
