eChallenge 2017 Award to Power Kick

On Friday representatives of Renmark High School attended the eChallenge Awards Presentation Ceremony as part of our Enterprise Academy Program. Five Renmark High School teams were listed in the fifteen finalist teams. In front of approximately 600 people the Power Kick Team received an Encouragement Award valued at \$500.

Their prize winning sales pitch follows: 'Have you ever wondered what the next generation of sporting equipment will do? Have you ever heard of a sporting team that wanted to gain a competitive edge? Do you know coaches that would like to have all the information in their

hand? Well the next generation of sporting equipment is here and it is called Power Kick. This revolutionary ball will track its every movement. How far did it travel? How fast did it get there? How many revolutions did it make? Simply use the Power Kick in training or game play and then upload the data onto your phone or device. With a wealth of information at coaches and players finger tips, precision will never be easier to reach.'

A great effort from all of the teams involved!

Science of Cars

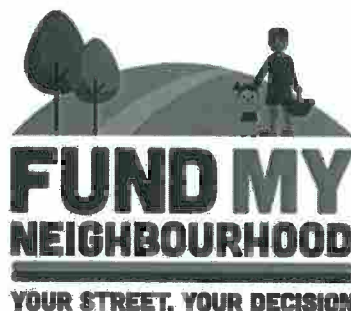

On Friday the 4th of November, a group of Year 10 students were lucky enough to have representatives from Big River Toyota visit. They delivered a session which focussed on the Science behind the automotive industry including hybrid cars, hydrogen fuel cells and autonomous vehicles. The morning gave students the opportunity to look

at how Science is changing the direction of the workforce and the world we live in. A big thanks to Mark, Michelle and Dave for the time they invested in visiting our school.

Science Coordinator

Help Fund Our Outdoor Space

Please help the Renmark High School SRC secure some funding for a multi-play, interactive outdoor space by voting for our project. We need you and everyone you know over the age of 18 to vote for this idea! Voting takes around 5 minutes. All you need to do is visit fundmyneighbourhood.sa.gov.au, register, follow the prompts, find our project and vote!

Year 10 Child Studies - Virtual Babies Experience

As part of Year 10 Child Studies students have been using virtual babies to gain firsthand experience of having the responsibility of looking after a newborn child.

Virtual Babies resemble real babies and can be programmed to require feeding,

burping, rocking, comforting and nappy changing.

Students had these babies with them constantly for three days and two nights.

Prior to taking a virtual baby home

students were required to prepare by engaging in research to budget for, plan and design a nursery and study the safety standards of nursery furniture.

Narindar Riar
Year 10 Child Studies Teacher

Virtual Babies are programmed to provide a real life parenting experience for students.

Year 10 Child Studies - Conception and Pregnancy

To consolidate the learning on Conception and Pregnancy, midwife Andrea Prokopec was invited to present to the class. Andrea provided the students with a comprehensive and informative presentation, discussing

antenatal care, diet and other influences during pregnancy that may affect the growth and development of the baby. Andrea also talked about birthing options and the stages of birth, breastfeeding and caring for newborn

babies.

Heathfield High Excursion

Last Thursday 33 Students from the Year 9 and 10 Volleyball classes attended Heathfield High School to play a range of exhibition matches against Willunga, Easter Fleurieu and Heathfield High Schools. On Friday our Year 9's played in the final of the

Knockout Cup competition where they came up against the best six schools from around the state. Both the boys and girls started extremely well, pushing Brighton and Heathfield to the wire, but had to ultimately settle for 4th place. All students gained some

valuable experience heading into the Australian Volleyball Schools Cup later in the term.

MATERIALS AND SERVICES CHARGES FOR 2018

All Parents/Caregivers are invited to the Governing School Council meeting on Monday 27th November at 7:00pm where the proposed standard sum of \$310 for Materials and Service charges will be discussed.

The charge is intended to cover the costs of those items and services deemed to be essential to the curriculum and are used or consumed by individual students during the course of their study for the calendar year.
