Week 9 Activities Week

Next week (Week 9 11th – 15th December) is Activities Week. During this week staff organise a smorgasbord of 40 different activities for students. There is certainly something for everyone with activities designed to be educational, community focused and/or recreational. The school is also funding the vast array of these activities. The success of this week depends on students signing up for and attending their selected activities.

Activities include – Boat licences, bread making, archery, ginger bread house making, LAN computing games, FIMO construction and many, many more. As this counts as a school week, if your child is not attending can you please communicate student absences to caregroup teachers in the usual way.

Deputy Principal

Oh So Skilful With Food - Final Touches!

The Year 10 Oh So Skilful with Food class have honed their skills and practiced all that they have learned to produce some decorative cakes. Thank you once again to Carol Follett and Kylie Duncan

for visiting the school to share their professional knowledge.
